

FLORENCE, - - AUGUST 20, 1887.

SUBSCRIPTION RATES:
 One copy, one year, \$5.00
 One copy, six months, 3.00
 One copy, three months, 2.00

Job work of every description done promptly and in the very best and most artistic manner, at reasonable rates.

Local Items.

See notice of a furnished house for rent.

40,000 pounds of lime for sale at J. M. Ochoa's.

Father Monfort went to Pinal yesterday to remain over Sunday.

Mr. R. H. Martin was in Tucson during the first part of the week.

Mr. J. D. Rittenhouse made a visit to his store at Sacaton this week.

The assessment list shows Pinal county to have 28,566 head of cattle.

Hon. G. H. Oury went over to Phenix on Sunday, on a little business trip.

Zamora Cigars at Weedon & Meek's—3 for 25cts or 7 for 100—\$3.50 for 50.

Messrs. W. H. Merritt and Wm. Cavill of De Noon, were in town on Tuesday.

Mr. J. J. Devine is having a neat woven wire fence placed about his house and lots.

Just received at Weedon & Meek's, Sunny Spain Cigars—4 for 25cts or \$1.50 per box of 25.

Mrs. Jos. Cummings left for the Yekol on Monday afternoon to attend her husband who is quite sick.

The materials for the erection of Mr. Geo. W. Campbell's new dwelling house are being hauled to his ranch.

The new law fixes the time for holding District Court in Pinal county as the first Monday in April and October.

Florence business men advertise in a way that speaks volumes for the enterprise of our Pinal sister.—Phenix Herald.

Weedon & Meek have just received a lot of La Dorella Cigars—4 for 25cts or \$1.50 per box of 25.

Mr. J. N. Walker has sold his Tunnel saloon to Mr. George Hammel and another gentleman, and will go to Pinal to locate.

Prospectors can find mining location blanks at the ENTERPRISE office in any quantities; every one warranted to locate a bonanza.

Mr. W. R. Stone and family returned from California last week, and are now comfortably settled in their new brick house on Main street.

Mr. A. T. Colton's resignation as engineer of the Florence Canal has been accepted. He will now devote his time chiefly to his private affairs.

Mr. J. G. Ross the veteran stable man and hostler, whom every one knows, is very low with the dropsy, and his chances for recovery are extremely doubtful.

The cattle broke into Mr. Thos. McLeilan's melon patch a short time ago and made a work with the growing crop. Only a few were left unhurt, but they are fine ones.

Mr. J. W. Taylor, formerly of Tucson, is now the book-keeper and business man at Mr. J. L. Clark's store at American Flag. Jack is always courteous and accommodating.

Mr. C. H. Holborn of Globe, is about closing out his business and on the first of next month he will open a wholesale liquor house in the Bailey building on Bailey street, Florence.

Bishop Adams has been tendered two fine lots in the western addition for church purposes and it is likely that a new place of worship will be erected this fall by the Methodists.

Mr. John Dore, who was beaten over the head by a Mexican at Whitlow's station several weeks ago, is still able to get around on crutches a little, but his progress towards recovery is quite slow.

Mr. Geo. W. Gamble, for a long time chief engineer at the Southern Belle mine, has gone to Clifton to take an engine on the Longfellow and Morenci railroad, which position he formerly occupied.

Mr. G. O. Eaton of Kansas City, Mo., arrived in Florence a few days ago and will probably locate here. He will engage in the manufacture of brick which will become the chief building material in this section.

J. C. Woolloess, the lively man of Pinal, passed through Florence on Wednesday for Casa Grande with his wife and children who are going to Carthage, Mo. Mrs. Woolloess's mother, living at Carthage, is very ill.

A sack of mail for southern California reached Florence on Wednesday from the Southern Pacific railroad. Evidently some route agent has not carefully studied the geography of the country over which he travels.

The Hon. Grant Oury arrived by this morning's train from his home at Florence. Mr. Oury has great confidence that Florence is going to become an important point in the Territory on completion of the great canal now under construction in that vicinity.—Phenix Herald.

Mr. H. G. Ballou raised some of the finest watermelons and cantaloupes this year that one would care to eat. He has achieved considerable local distinction for the quality of these productions and in the season there is a lively demand for them. His crop the present season was large and he sold many a big load.

The Sample mine, located near Dudleyville, will commence work to-day, the 20th inst. For the first month, or six weeks the work will be of a preliminary nature. A shaft will be sunk to the depth of 110 feet and connected with a sister shaft at that depth. After which the work of drifting, station cutting, etc., will be in order.

Messrs. Weedon & Meek now have their model drug store in good running order and they are prepared to supply all manner of drugs and medicines demanded by the public. In their big advertisement they enumerate a few of the articles not hitherto kept for sale in Florence, and they enjoy the advantage of having a new and fresh stock of everything.

M. B. Mullen.

Any one knowing the whereabouts of M. B. Mullen, formerly of Silver King, will confer a favor by addressing his sister, Mrs. Henry Block, Gridley, Butte County, California.

OUR MINING INTERESTS.

A Flourishing Camp at the Owl Heads.

Mines that have Paid from the Grass Roots Down.

PINAL county is famous for the extent and permanency of its mines, many of them being wonders in their way, yielding rich returns to their fortunate owners and constantly improving with further developments. The Silver King, the Yekol, the Mammoth and the mines of the Tortilita Gold and Silver Mining Company at the Owl Heads, are each steady producers, and they stand upon their merits as brilliant examples of the successful industry—not lottery—of mining.

A representative of the ENTERPRISE visited the Owl Heads this week and made a thorough examination of the mines and the camp. The group of twelve mines lie between the Owl Heads and the Tortilita mountains, about eleven miles north of Red Rock station on the Southern Pacific railroad, at an elevation of 4500 feet above the sea level. The camp and mill are about eight hundred feet lower, very pleasantly situated in a cool and healthy location.

During the past four years the quiet work of development has been conducted by the Superintendent, D. T. Elmore, and the proceeds of the five-stamp prospecting will have been ample to meet the heavy expense involved and to extend the work upon all claims. The bullion produced and shipped since the mill started closely approximates \$175,000—a most remarkable output under the circumstances.

Quite recently the water level was reached in the double compartment shaft of the By Chance and Lone Will mines, at a depth of 90 feet, accompanied with a change for the better in the character of the ore and a more compact and larger body. Satisfied that the time had arrived when the magnitude and value of the prospects required the management of a company with ample means, the Tortilita Gold and Silver Mining Company was organized upon a substantial basis, with Mr. Joseph H. Reall, an experienced business and financial gentleman of New York, as President; Hon. Floyd King, ex-congressman from Louisiana, as vice President and Treasurer and Mr. Rodman M. Price, Secretary. The directors are among the substantial business men of New York.

A steam hoist is soon to be placed in position and the work will thereafter be carried on upon a grander and more profitable scale. A 20 stamp mill will probably be erected, which can be operated at slight additional expense while it will more than quadruple the bullion production. The increase in the capacity of the mill is a necessity that the success of the company now chiefly depends upon, for the mines are capable of supplying far more ore than such a mill can reduce.

Of the twelve claims, the By Chance, its western extension, and the Lone Will claims are undoubtedly upon a vast vein of ore running nearly east and west, and every opening so far made shows ore of excellent quality, nearly all of which will mill over fifty dollars per ton. At a depth of 90 feet the ore body is very wide almost beyond a belief of possibility. The ore is a chloride and free milling.

The Josie Benton and Tom Benton are among the original locations, and they are developed sufficiently to demonstrate their permanence and value. The ledges are not wide, averaging about 2 1/2 feet, but the \$45,000 in bullion that has come out of them tells their worth.

The Golden Eagle, southwest of the By Chance, has a 60 foot shaft sunk on the vein, which is over two feet wide, carrying considerably gold with the silver, averaging over \$12 to the ton. The lead is well defined and is a most promising property.

The south group of mines are about two miles southwest from the By Chance, and comprise the Red Peach, Lazy Sleeper, Lion, Joe Dandy, Buckhorn, and Desert. The latter is the best developed claim in the camp. The main shaft is nearly 200 feet deep, with drifts run at proper intervals to explore the ore body. This claim (the Desert) has yielded \$40,000 in bullion and has a large dump of ore that will mill from \$15 to \$20 per ton. The other claims show good veins of ore giving an average from \$20 to \$30 in silver, and a rich streak that yields over \$1,000 per ton. They are all claims of merit and are worked upon that basis.

The mineral is found in a strong porphyry dyke that cuts through the granite formation from the northwest to the southeast. The mineral veins apparently concentrate with depth and one is forced to the conclusion that the dyke is the great ore vein. If such proves to be the case there is a splendid future awaiting these excellent properties.

The ore is hauled from the mines, down an even and easy grade, two miles to the mill. The cost of hauling does not exceed \$2 per ton and wood is abundant and cheap. The well supplying the water for the mill is 40 feet deep with 30 feet of drift. It furnishes an abundance of water for all requirements. A larger mill would experience no difficulty in procuring plenty of water even if the present well should prove inadequate, for it has been demonstrated on the ranch of the Spanish Brothers, not far away, that an inexhaustible supply can be had at a depth of 90 feet. The water pumped from the By Chance and Benton shafts can also be utilized for milling purposes.

Mr. Elmore, the manager, is an experienced mining man, and the fact that he has succeeded so well in thoroughly developing these properties from the proceeds of the little mill is the highest compliment to his ability in the eyes of practical men. He has an excellent foreman, in Mr. Jos. McGovern, whose mining experience in Nevada especially qualifies him for his present responsible position. Mr. Frank Green, the mill man, is well adapted to his important duties, while the engineer, Mr. F. W. Pierce is punctual, attentive and reliable.

In speaking of these properties the utmost care has been exercised to avoid exaggeration or attempt to "boom" them. Good mines are not made in that manner, and these do not need a word of unmerited praise. They are open for the inspection of any one and an examination will more than justify all that has been said of them. The people of Pinal county know their worth and feel proud of them and they are certainly capable of correctly judging of their value.

Mr. D. C. Stevens has been elected president of the Montezuma canal company. When he navigated the turbulent waters of the raging Chippewa in Wisconsin, from Eau Claire to Reed's Landing, Dan little dreamed that he would ever become president.

Mammoth Musings.

MAMMOTH, August 15.

DEAR ENTERPRISE: Well, Rev. Mr. Gill held services here again last Thursday evening. It is a good thing for Mammoth to have a church for so great many of the boys haven't been inside of one for 6 months. (see Hinson Thomas.)

There is at present, working in the mine a man upon whom the fate of the nation during the dark and bloody times of '64 turned. This is ex-Corporal Muldoon, late of Sherman's army. At one of the seven battles before Atlanta fell, when Johnston was giving Sherman all he wanted to take care of, Corporal Muldoon was squatting behind a stone fence pouring death and destruction into the confederate ranks, when a shell from a confederate siege gun burst immediately in his rear turning "Tam" complete sumersault over the fence. General Sherman who had been keeping an eye on Muldoon, seeing the effect of the explosion, rode up in a gallop and exclaimed, "Corporal Muldoon ar yees killt! Naw gineral; I am not." "Glory be to God, for that; now let the fight go on."

This is truth, for I have heard Muldoon tell it. Our worthy superintendent, Capt. J. W. Johnston, is in Tucson in the hands of a doctor, he having got outside of too much of the San Pedro malaria. All here are rejoiced to learn he is much better and expected home to night.

G. H. Barnhart the assayer, left Saturday for Tucson, to receive the first installment of tools and supplies for the Sample mine. Harry is now General Superintendent of the "San Pedro Mining Co." and a "brave little lad" he is too; eminently qualified, practically and theoretically, to fill the position, and as he has a very good property to work we may soon look for something from Dudleyville in the way of a mining boom.

Col. Andrew Wallace, Supt. of the Mammoth Mill, and Mr. Chas. Little, Supt. of the Mammoth Mine, have applied for and obtained a leave of absence after two years of arduous and close attention to business. They propose to take a two months' trip through Northern Arizona into Southern Utah, and Nevada, thence home by San Francisco, and the city of the Angels. There will be no cessation of operations at either mine or mill on account of their absence.

The mine is looking better than ever, immense ore bodies are all blocked out and in reserve ready for stopping; enough in fact to run the 30 stamps for years.

Mrs. Bettie Burch was taken into Tucson for medical treatment last week, she having suffered a relapse. All her friends anxiously wait news as to her condition, hoping for the best.

Baskins & Sower are still yanking the dollars out of those who hunger and thirst. Louis has assumed a staid and dignified demeanor since his commission as Post Master, but wears his honors well and makes a very efficient and obliging P. M. Mr. Sower and wife and daughter are on a short visit to Tucson.

Glorious rains have fallen last week, and the San Pedro is on the rampage. The cattle are all smiling at the rapidly improving prospect for good winter feed.

The business houses here are all doing well. Dick Nicholson has secured ground and expects to move his buildings and business up to the mine.

There is a report that Capt. Jack Burgess has sold his big copper mines at Table Mt., 12 miles north of here, to a New York syndicate. If this is so, look out for more "gold" in the Territory.

Prof. J. Douglas Jr. is at the head of the Company which is a guaranty of its financial solidity. The road brigade comprising Shoshusen, Snyder, and Scully are hard at work mending the road. Bueno!

Well, with the advice to all Florentines, be good and you will be happy; be honest and remain poor, I will bid you, an adieu.

POLLED ANGUS

Active Pushing and Reliable.

J. D. Rittenhouse can always be relied upon to carry in stock the purest and best goods, and sustain the reputation of being active, pushing and reliable, by recommending articles with well established merit and such as are popular. Having the agency for the celebrated Dr. King's New Discovery for consumption, colds and coughs, will sell it on positive guarantee. It will surely cure any and every affection of throat, lungs, or chest, and in order to prove our claim, we ask you to call and get a Trial Bottle Free.

Pure Wine.

The pure wine law of California gives purchasers of wine ample assurance that it is not adulterated. Wine in barrels are stamped over the bung with the state inspector's certificate of purity. Col. Joseph Durr of Tucson receives a carload of pure wines each month, all properly stamped as net adulterated, and he is supplying all the southern portion of the Territory with a pure and wholesome article, using over fifty barrels per month.

He sells the finest and purest Zinfandel wine by the barrel at 70 cents per gallon; single gallon 85 cents, or 20 cents per bottle, and all other pure wines at like low rates. Any one can inspect these wines and become satisfied of their purity. Orders by mail are promptly attended to by the Warum Darum.

Mr. Chas. Starr of this place, who is well acquainted with the people of Ton-ton Basin reported to have taken part in the recent killing there, says the men who were killed there were the rustlers that subsist on the industry of the cattle men of that section, while those supposed to have killed them are the cattle owners who are protecting their property. The names of those said to have done the killing or accessory to it, are those of good, reliable settlers, and if they really committed the act charged against them they were fully justified by the circumstances.

Wonderful Cures.

W. D. Hoyt & Co. Wholesale and Retail druggists of Rome, Ga. say: We have been selling Dr. King's New Discovery Electric Bitters and Bucklen's Arnica Salve for two years. Have never handled remedies that sell as well, or give such universal satisfaction. There have been some wonderful cures effected by these medicines in this city. Several cases of pronounced consumption have been entirely cured by the use of a few bottles of Dr. King's New Discovery, taken in connection with Electric Bitters. We guarantee them always. Sold by J. D. Rittenhouse.

There is a strong probability that a Minnesota colony will purchase Pat Holland's great ranch, a couple of miles above Florence, and cut it up in smaller farms. With the display of the same energy required to produce a meagre crop in Minnesota these farmers will grow wealthy here in a few years, where from two to five crops per year are the rule, and better prices prevail.

In response to the published call there was a meeting of the representative cattlemen of Pinal county held in Florence last Saturday to effect an organization. After the preliminary discussion of the matter a constitution and by-laws were adopted similar to those of the Pima county association. The organization was perfected by the election of Mr. J. M. Ochoa, president; Wm. E. Guild treasurer, and W. Y. Price, secretary. An executive committee of ten members was appointed, after which the association adjourned to meet on September 3d. Nineteen members signed the roll.

Drew & Bamrick are the mail contractors to Silver King and Pinal. The best stock and quickest time made.

200 Laying Hens for Sale.
 Two hundred laying hens for sale at my ranch. Price, \$5 per dozen.
 H. G. BALLIOU.

BORN.

In Solomonville, August 3, to the wife of Mr. Lambert Frye, a daughter.

MARRIED.

In Prescott, August 10, W. T. Richardson and Mrs. Mary R. Hutchison.

In Prescott, August 7, Edward Long and Mrs. Idella Woodling.

In Phenix, August 15, C. H. Reinhart and Mrs. Nellie Marx.

DIED.

In Ash Fork, August 6, son of Mr. and Mrs. John Foley, aged 5 years.

In Prescott, August 12th, George A. Hammond, aged 50 years.

ROYAL BAKING POWDER
 Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and can be sold in competition with the multitude of low test, short weight alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 108 Wall Street, N. Y.
